

8 January 2021 Update

- Area 34 is now a gun area. RTC says this is a trial run and if all goes well, may become permanent down the road. RTC emphasized, heavily, that hunters must stay west of the big ditch that runs through the area.
- Please ID your target before pulling the trigger. We've harvested 5 spikes.
- Harvest as of 7 January 33 Does and 27 Bucks
- If you access the Range areas through Anderson Road, the Gate must be secured at all times. **THINK OPSEC!**
